

Environmental Policy

At Atma Environmental, we recognise our responsibility to meet community expectations. We are committed to the continuous improvement of our environmental performance and to providing professional and technical services with due concern towards the environment. Atma Environmental recognises the importance of sustainability and of reducing its environmental footprint.

To achieve this, we will:

- Develop and implement an Environmental Management System consistent with the requirements of ISO 14001.
- Establish annual environmental objectives / targets and review these annually.
- Comply with relevant national and state environment legislation and guidelines.
- Proactively identify environmental hazards from our operations to assess their risk and eliminate or, if not possible, manage the risks to be as low as is reasonably practicable.
- Positively influence the environmental performance of our suppliers and clientele.
- Manage our activities to prevent or minimise pollution and impacts on visual amenity, air, water, land, flora, fauna and cultural and heritage values.
- Strive to improve resource consumption efficiency and to minimise waste generation in the provision of our services.
- Ensure understanding of environmental requirements and promote implementation of relevant standards and guidelines among our employees, suppliers and contractors.
- Monitor and report our environmental progress
