

5th May 2006

Glenn Berry
Atma Environmental
6/83 Dover St
Richmond VIC 3121

Atma Environmental was engaged in October 2005 by Peet Windsor Park Syndicate to carry out an assessment of previously imported fill at Brimbank Gardens. Our principal contact during the three months of investigation at Atma was Glenn Berry.

Considering the complicated elements that made up this project, Atma were expeditious and thorough in their research and innovative in their preparation. They also proved highly valuable and effective in subsequent meetings with local authorities.

I would willingly engage Atma for any environmental work that may arise in the future.

Yours

Nick Elliott
Project Manager
