Mr. Glenn Berry
Atma Environmental Pty Ltd
6/83 Dover Street,
RICHMOND Vic. 3121

Dear Glenn and Team,

On behalf of Shanley Management Services, we would like to thank Atma Environmental for its efficient and effective delivery of our recent project involving a UST Validation at former Heathmont SC and several other recent projects of similar scope.

We want you to know that we are very pleased with the high quality and service your company provides. We have been impressed with the ongoing communication, support and advice given. That is to say that Atma Environmental team has consistently been able to give us a quote, mobilise to site, and get the job done with a final satisfactory report quick smart.

As project managers for significant clients, this level of service is greatly appreciated, and only makes us look good!

The friendly business relationship we have with your company is appreciated and will be looking to work with you and your team of environmental professionals in the future. It's a pleasure to work with a team of environmental project managers who know the meaning of efficiency and we would be happy to recommend Atma Environmental Pty Ltd to others.

Regards,

Paul Shanley
